THE COMMONWEALTH OF MASSACHUSETTS

STATE RACING COMMISSION

I. INTRODUCTION

The Massachusetts State Racing Commission is a State Regulatory Agency created by an act of the General Court in 1934. Massachusetts General Laws, Chapter 6, section 48 states:

"There shall be a Commission to be known as the State Racing Commission to consist of a commissioner and two associate commissioners to be appointed by the governor and serve coterminous with him. Not more than two of such members shall be of the same political party. The Commissioner shall serve as chairman and shall devote his full time during business hours to his official duties."

The State Racing Commission is one of the eight regulatory agencies under the jurisdiction of the Executive Office of Consumer Affairs and Business Regulation. The Racing Commission is charged with the supervision of the conduct of the business of racing in Massachusetts. This is to insure the integrity of racing.

The Commission's foremost responsibilities include the issuance of licenses to Associations who operate racetracks, as well as the issuance of occupational licenses to every person who participates in racing.

LICENSING PROCESS

The licensing process requires that every person participating in racing complete an application on commission forms, and that all questions be answered truthfully. The application is reviewed for completeness by Racing Commission Inspectors who then forward the application to the Board of Stewards/Judges at each track. The Board reviews the application and may, if necessary, interview the applicant. The Stewards/Judges must determine if the applicant has the required integrity, ability, and the right to the license applied for. Frequently, the Racing Commission Inspectors and the Board of Stewards/Judges will refer an application to the State Police Investigative Unit to conduct a background investigation of the applicant. The Racing Commission also has direct computer access to the Association of Racing Commissioners' International, Inc. files in Lexington, Kentucky. These files are a record of every racing related offense attributable to the applicant anywhere in the country.

APPLICATIONS FOR LICENSURE PROCESSED IN 1992

If the Stewards/Judges recommend the applicant to be licensed, the Commission Inspectors will collect the required fee and enter the applicant's information in the commission's computer network. At this time, the applicant is issued a license card that entitles him to a picture identification badge. No person can enter any restricted area of a racetrack without a picture identification badge.

OCCUPATIONAL LICENSES

During 1992, the Racing Commission issued 9,335 occupational licenses to persons participating in horse and dog racing throughout the Commonwealth. Occupations licensed include jockeys, trainers, assistant trainers, owners of racing

animals, blacksmiths, racing officials, kennel owners, vendors, stable employees, and leadouts.

ASSOCIATION LICENSES

During 1992, the Racing Commission issued dog racing licenses to Massasoit Greyhound Association and Taunton Dog Track, Inc., both located in Raynham, MA, and Wonderland Greyhound Park, Inc. located in Revere, MA, to conduct racing during calendar year 1993. The Commission issued a running horse racing license to Sterling Suffolk Racecourse Limited Partnership during calendar year 1993. The Commission issued a harness horse racing license to Foxboro Harness, Inc. during calendar year 1993. In addition, the Commission issued running horse racing licenses to the Hampshire, Franklin, and Hampden Agricultural Society for the purpose of conducting racing in conjunction with their annual agricultural fairs in 1993.

\$ 28,000,000.00 IN REVENUES COLLECTED

In addition to licensing racetracks and participants, the Commission has a primary responsibility to collect revenue in accordance with Chapter 128A of the General Laws. Each licensed racetrack pays daily to the Racing Commission a commission as determined by law, in addition to license fees and assessments. Commission Inspectors collect occupational license fees and fines. All unclaimed monies for outstanding tickets eventually revert to the Commonwealth. The State Racing Commission collected \$28,000,000.00 from Massachusetts racetracks in 1992.

ENFORCEMENT OF RULES AND REGULATIONS

The most significant responsibility of the Commission is the enforcement of the rules and regulations of racing. It is only as a result of conscientious, consistent, and aggressive enforcement of the rules and regulations, that we can ensure honest racing.

351 RULINGS -- BOARD OF STEWARDS/JUDGES

The regulatory process begins with promulgation of rules and regulations and concludes with the enforcement of those rules. On July 7, 1992, Chapter 101 was signed into law. Chapter 101 changed the number of States Stewards/Judges at the racetracks from one to two. The Board of Stewards/Judges at each racetrack now consists of two persons appointed by the Racing Commission and one person appointed by the Association, and approved by the Racing Commission.. The Board of Stewards/Judges is the most significant link in the regulatory chain. The Stewards/Judges are responsible for recommending persons for licenses, and insuring that each licensed racing association and all participants are in compliance with the rules and regulations of racing. The Stewards/Judges carefully examine every license application to determine if the applicant is eligible for a license. The Stewards/Judges observe every race run at the racetrack and determine if the race is conducted in accordance with the rules. The Stewards/Judges are responsible for making each race official. The Stewards/Judges also monitor the conduct of all licensees in all areas of the racetrack. If a licensee appears to be in violation of the rules, the Stewards/Judges conduct a hearing and make a final determination. If there is a violation of the rules, the Stewards/Judges may sanction the licensees by imposing a fine and/or suspension.

67 APPEALS TO THE RACING COMMISSION

The Stewards/Judges' decisions are reviewed by the Commission. If any licensee disagrees with a decision of the Stewards/Judges they may appeal to the Commission. The Commission affords the appellant an adjudicatory hearing on the merits of his appeal. If an appellant is dissatisfied with the decision of the Commission he may appeal to the Superior Court in accordance with Chapter 30A of the General Laws.

The Racing Commission's regulatory activities have resulted in improved compliance by licensees.

Hearings	1983	1984	1985	1986	1987	1989	1990	1991	1992
Board of Judges/Stewards	626	849	852	905	550	515	173	143	351

Sanctions									
Fines	429	546	594	549	364	294	153	159	154
Suspensions	197	297	250	301	160	121	43	59	111

COST EFFECTIVE STATE SERVICES

OVER 28 MILLION IN REVENUE COLLECTED - 2.46 MILLION IN EXPENDITURES

In 1992, working with 42 full-time employees and supplemented by part-time employees, the Racing Commission fulfilled its duties and responsibilities in a most effective and efficient manner. Expending only 2.46 million dollars, the Racing Commission directly supervised thousands of persons licensed by the Commission and collected over 28 million dollars in revenue.

42 FULL-TIME EMPLOYEES

- * Processed more than 9,300 license applications
- * Investigated more than 351 violations of the rules and regulations
- * Conducted more than 351 Administrative Hearings
- * Collected, Audited, and Deposited in the general fund in excess of \$20 Million in Revenue

The Racing Commission is utilizing every resource available to them and is succeeding in ensuring that honest and well-managed services are delivered to the citizens of Massachusetts.

SIGNIFICANT ACTIVITIES DURING 1992

Foxboro Park Opens - Harness Racing returns to Massachusetts after five years.

Suffolk Downs Re-Opens After Two Years:

Chapter 101 signed into Law - Simulcasting :

OTB Committee Formed :

MASSACHUSETTS STATE RACING COMMISSION

M.G.L. Chapter 6 Section 48

Chairman

Gary T. Piontkowski

Associate Commissioner

Christ N. Decas

Associate Commissioner

Arthur M. Khoury

The Racing Commission consists of a full-time Chairman and two part-time Associate Commissioners. The Commission is charged with the supervision of the conduct of the business of racing in Massachusetts. In its efforts to ensure fair and honest pari-mutuel racing, the Commission promulgates and enforces rules and regulations, proposes legislation and develops policies to better regulate the Racing Industry.

MEETINGS AND HEARINGS

During 1992, the Commission held 46 executive meetings at the Commission Office, One Ashburton Place, Boston, MA. The provisions of Chapter 372 of the Acts of 1978 have been complied with in the calling of each meeting.

In addition, as required by Chapter 128A of the Massachusetts General Laws, the Commission held six public hearings on eight applications for licenses to conduct horse, dog and harness racing meetings. The hearings were held in Revere, Raynham, Boston, Foxboro and Great Barrington, Massachusetts.

The Racing Commission in 1992 presided over 67 adjudicatory hearings as a result of appeals from rulings of the Stewards and Judges at the various commercial and fair racetracks throughout the Commonwealth.

351 RULINGS IN 1992

The Commission conducts weekly hearings pertaining to association licenses, violations of rules and regulations, and appeals of fines and suspensions. In 1992, 351 violations of the rules were prosecuted by the Board of Stewards at Suffolk Downs, Foxboro Thoroughbred, Foxboro Harness, and the Board of Judges at Raynham Park and Wonderland Park. Of those violators fined and suspended, 67 appealed the decision to the Racing Commission.

67 DECISIONS APPEALED TO THE RACING COMMISSION

The Racing Commission, sitting as a quasi-judicial body pursuant to the Massachusetts Administrative Procedures Act, adjudicated 47 appeals. The Commission has taken extensive precautions to ensure licensees due process throughout the appeal process. The Commission initiated a Stay of Suspension policy. This permits licensees suspended by the Stewards/Judges for a minor violation of the rules that does not compromise the integrity of racing to continue to participate in racing until said licensees have been afforded a hearing by the Commission and a decision has been rendered. Procedural safeguards have been adopted which prevent licensees from abusing the Stay privilege. Hearings must be conducted within two weeks of the granting of the stay, thereby preventing licensees remaining on stays for a long period of time.

Previously, licensees who were suspended for minor violations had no recourse to immediately begin serving their suspension other than to apply to the courts for a temporary restraining order, which proved costly and time consuming.

DUE PROCESS AFFORDED ALL LICENSEES

While the right to protect the public is subject to the power of the state, an accused who is charged with a violation of the rules that may result in the loss of a license is always entitled to a hearing. Formal disciplinary hearings held by the Commission follow the requirements established in the Massachusetts Administrative Procedures Act. Such requirements include issuing timely notice of hearings, providing the opportunity for an appellant to confront witnesses and to be represented by counsel.

COMMISSION DECISIONS APPEALED TO THE SUPERIOR COURT

In addition to hearing appeals, the Racing Commission must prepare a complete record and legal decision for each case that is appealed to the Superior Court. When the record is completed and certified, it is forwarded to the Government Bureau of the Attorney General's Office and is assigned to an Assistant Attorney General who defends the case in court. The Commission and the Attorney General work closely together to present the best possible case in the Superior Court.

The Commission would like to take this opportunity to thank the Attorney General's Office for the diligent, professional, and expert defense of Racing Commission cases.

MASSACHUSETTS STATE RACING COMMISSION

ADMINISTRATIVE OFFICE

Special Assistant to the Commissioner - Michael J. Callahan

Secretary - James G. Nagle/Elizabeth M. Barry

Auditor - William L. Gibbons, CPA

Director of Racing - Paul V. Wheeler/David Ernst

Fiscal Officer - George Collins

Administrative Assistant - Patricia J. L'Heureux

Clerk IV - Elizabeth M. Barry

Clerk III - Diane C. Mackey

Bookkeeper I - Marta M. Ferreira

Clerk II - Linda A. Mackey

The Racing Commission is responsible for ensuring the legitimate performance of all racing animals and is also responsible for the integrity of pari-mutuel wagering. This is accomplished through the efforts of Racing Commission Inspectors, Accountants, Laboratory personnel, Veterinarians, Judges and Stewards, State Police Investigators, and the personnel within the Administrative Office.

The Chairman's responsibilities include overseeing the budget process and coordinating the overall management of all Racing Commission activities. These responsibilities are fulfilled by the conscientious efforts of the personnel within the Administrative Office. The Administrative Office is responsible for all phases of personnel management, financial management, fiscal planning, and revenue collection.

OVER 28 MILLION DOLLARS IN REVENUE COLLECTED IN 1992

The administrative office audits, records, and deposits receipts from racetracks for: commissions, breakage, association license fees, assessments, trust funds, occupational licenses, fines and outstanding tickets. The staff transfers receipts to the State Treasurer's office daily.

APPROXIMATELY 2.46 MILLION IN EXPENDITURES IN 1992

The administrative office analyzes the financial needs of the Commission in order to anticipate budgetary requirements. The staff daily monitors cash needs through accurate cash forecasting included in the spending plan.

1386 RACING DAYS - 42 FULL TIME EMPLOYEES

The administrative staff establishes and maintains a calendar of racing days, a schedule of necessary personnel and a record of payrolls for track employees and State Police details at each track.

154 FINES -- 111 SUSPENSIONS -- 45 EJECTIONS

Administrative staff establishes and maintains an accurate record of all persons fined, suspended, and/or ejected from each racetrack as well as all persons who are the subject of a ruling by the Board of Stewards/Judges at the various racetracks.

The Administrative Office also compiles and/or issues such reports as the spending plan, budget request, annual reports, GAAP, financial statements of licensed associations, physical property inventory, affirmative action, small business and minority business, and maintains an accurate record of minutes of all business conducted by the Racing Commission.

STATE POLICE INVESTIGATIVE UNIT

Detective Lieutenant

James C. Lane

Troopers

Craig W. Fries

Gary R. Walsh

Thomas J. Sullivan

The goals of protecting racing participants and the wagering public as well as maintaining the public's confidence in pari-mutuel wagering are achieved through the Commission's licensing, revenue collection, and investigative activities. The State Police Investigative Unit plays a vital role in achieving these goals.

M.G.L. CHAPTER 128A, SECTION 8

The Racing Commission applies to the Department of Public Safety for an assignment of a complement of police officers. The Commission assigns State Police officers to guard and protect the lives and safety of the public, property, and animals at all such racing meets. In the performances of their duties, the State Police Investigative Unit investigates violations of the rules of racing and the Massachusetts General Laws. The Investigative Unit's extensive responsibilities and activities have resulted in a major improvement in the Commission's regulatory functions.

KENNEL/STABLE INSPECTIONS

Kennel/Stable inspections focus on the detection of safety violations, the presence of unlicensed persons in restricted areas, and the possession of illegal medications, drugs, and syringes. These inspections are conducted by officers assigned to the State Police Unit and aide in preserving the integrity of racing. These inspections are conducted both at the racetracks and at private sites off the racetracks.

90 POSITIVE DRUG TESTS -- CONTROLLED MEDICATION VIOLATIONS

Protecting the integrity of racing involves animals racing free of prohibited drugs and medications. The Investigative Unit is responsible for ensuring that the testing areas where samples are collected are secure and that the continuity of evidence is maintained with all samples. The State Police investigate each positive drug test reported by the Racing Commission Laboratory, and interview the trainers, veterinarians and other persons responsible.

EJECTIONS -- WARRANTS SERVED -- ARRESTS

In 1992, the Unit conducted 32 investigations including arsons, assaults, fraud, larceny, sex abuse, and service or warrants, etc. which resulted in nine arrests and fifteen ejections from Massachusetts racetracks or persons whose presence was determined to be detrimental to the best interest of racing.

MASSACHUSETTS RACING FAIRS

The State Police Investigative Unit plays a major role in organizing and supervising security at the racing fairs held in Massachusetts. In addition to their regular duties, the Investigative Unit works with fair management at least three months prior to the opening of each fair. These meetings involve important issues such as track conditions, security, and pari-mutuel procedures. One week before the fair, officers from the Investigative Unit are involved in initial security preparations. For the duration of the fair season, all officers from the State Police Investigative Unit are assigned full-time to supervise security at the fairs.

UNIFORMED STATE POLICE DETAILS

The State Police Investigative Unit assigned to the Racing Commission oversees and assists the uniformed State Police detail in the test area at each racetrack. Paid by the Racing Commission, this detail is responsible for witnessing the collection of samples, insuring the continuity of samples, and transporting samples collected in the testing area to the Racing Commission Laboratory. State Police training ensures the integrity of samples and provides expert testimony at administrative and court proceedings. Detail Officers also patrol the Jockey's room and paddock areas at Suffolk Downs and Foxboro Park.

SPECIAL INVESTIGATIONS

The State Police Unit conducted thorough investigations into the background of each individual who was party to the application for a racetrack license in Massachusetts. The State Police Unit also conducted several special investigations concerning gaming violations in conjunction with other agencies and units within the State Police.

BACKGROUND INVESTIGATIONS

The State Police conducted 116 background investigations on all Racing Commission employees, racing officials and trainers who participate at Massachusetts racetracks. They also conduct background investigations on many of the other persons licensed at Massachusetts racetracks.

THOROUGHBRED-STANDARD-BRED RACING

Suffolk Downs and Foxboro Park scheduled approximately 200 performances each. The Unit committed itself to maintain a constant presence at each racetrack, especially during live racing, working closely with the Stewards/Judges and other commission and racing officials to help ensure that each track operated honestly and credibly.

STATE RACING COMMISSION LABORATORY

Chief of Laboratory

Bruce Aspeslagh - B.S., Chemical Engineering

Assistant Chemists

Encarnacion L. Bernaldo - B.S., Medical Technology
Christine Gottshall - B.S., Chemistry

Laboratory Technician

Melchor Layon - A.S.
Jocelyn M. Fadrigalan

The State Racing Commission Laboratory is an important link in the Racing Commission's effort to ensure that quality racing exists within the Commonwealth. The primary function of the State Racing Commission Laboratory is to analyze samples of urine and blood taken after each race from every winning horse or greyhound and any other horse or greyhound designated by Racing Commission officials.

INTEGRITY OF SAMPLES ENSURED

Special precautions are taken at all Massachusetts race tracks when post race urine and blood samples are collected to ensure that no tampering can take place. In order to assure the continuity of evidence, every winning horse or greyhound and all designated horses or greyhounds are under the surveillance of a uniformed State Police officer and a Racing Commission testing assistant from the time the race is over until the specimens are obtained. Samples are properly identified and transported immediately after the close of each racing performance by a uniformed State Police officer to the Racing Commission Laboratory in Jamaica Plain and placed in a locked laboratory locker for analysis the next day.

Responsibility for the custody of the samples is assumed by the Racing Commission Laboratory personnel once the samples have been placed in the laboratory locker. To eliminate bias, the chemist identifies the sample by number only. After analysis, the results are reported directly to the Racing Commission.

QUALITY ASSURANCE PROGRAM

The Racing Commission Laboratory continued its membership in the Association of State Racing Commission Chemists along with its participation in the Cornell University School of Veterinary Medicine Quality Assurance Program.

24,474 URINE SAMPLES - 888 BLOOD SAMPLES SCREENED

Despite a heavy workload, the Racing Commission's Laboratory provides high quality results. The laboratory annually screens in excess of 24,000 samples for the presence of illegal drugs and medications. Each year a few samples consist of confiscated meat, vitamin preparations, pharmaceuticals, and hypodermic syringes.

SOPHISTICATED INSTRUMENTS -- STANDARDIZED PROCEDURES

Each blood and urine sample received by the laboratory is subject to a series of screening tests according to standardized procedures set by the Association of Racing Commissioners International, Inc. (ARCI). Massachusetts allows the use of phenylbutazone (bute) and furosemide (lasix) in horses under the direction of the Controlled Medication Program and the Bleeder Program. The Racing Commission Laboratory monitors the levels of these drugs in all equine samples received. All samples that reveal the presence of a drug or foreign substance are then subjected to additional tests to prove or to disprove the initial findings. Unknown compounds must be unequivocally confirmed by the use of such testing methods as gas chromatography and mass/spectrometry.

55 POSITIVE DRUG FINDINGS

Upon confirmation of a positive drug finding, contact is made to the Racing Commission Office in Boston to obtain additional information regarding the sample. The Laboratory informs the Racing Commission of the sample tag number, the name of the track, the date of the race, and the drug found. The Commission informs the Laboratory of the race number, the name of the animal, and the name of the trainer. A report is sent to the Racing Commission with a copy to the track Steward or Judge and a copy to the Racing Commission State Police Investigative Unit for additional investigation and subsequent prosecution. During 1992 the Laboratory confirmed 85 drug and medication positives. (See Exhibit "Report of Official Samples Analyzed During 1992").

An additional 43 greyhound urine samples were found to contain sulfonamides and/or trimethoprim. These samples were not reported as positive pending a review by the Racing Commission regarding the use of antibacterials in racing greyhounds.

The Commonwealth of Massachusetts
State Racing Commission
Laboratory
305 South Street
Jamaica Plain, Mass. 02130

January 8, 1993

TO: Massachusetts State Racing Commission
FROM: Bruce Aspeslagh, Chief of Laboratory
RE: Report of Official Samples Analyzed During 1992

1. In 1992, the Massachusetts State Racing Commission Laboratory analyzed 24,474 urine and 888 blood samples for the presence of drugs with the following results:

SOURCE	URINE	BLOOD	*POSITIVES
Thoroughbred	3,495	747	15
Harness	1,245	141	1
Grevhound	19,734	0	35
TOTALS	24,474	888	49

* not including Controlled or Bleeder Medication Program violations.

2. The above positives break down as follows:

SOURCE	DRUG FOUND	#SAMPLES
Suffolk Downs	Ambroxol	1
	Flunixin	5
	Sulfamethoxazole	1
Foxboro (Thoroughbred)	Tranexamic Acid	1
Foxboro (Harness)	2-(1-hydroxyethyl)- promazine sulfoxide	1
	Sulfamethoxazole	1
	Trimethoprim	1
Northampton Fair	Sulfamethoxazole	2
	Flunixin	2

Report of Official Samples Analyzed During 1992 Page 2

2. (Positives continued)

SOURCE	DRUG FOUND	#SAMPLES
Raynham/Taunton	Salicylic Acid	1
	Sulfadimethoxine	1
	Sulfamethazine	2
	Sulfamethoxazole	1
	Trimethoprim	2
	Procaine	4
Wonderland	Fenbendazole metabolites	3
	Procaine	1
	Sulfadimethoxine	4
	Sulfamethazine	8
	Sulfamethoxazole	1
	Trimethoprim	3
	Caffeine, Theobromine, and Theophylline	1
	Pseudoephedrine and Phenylpropanolamine	3

3. All equine urine samples submitted were subjected to quantitative screening for phenylbutazone and/or its metabolites as per the Massachusetts State Racing Commission Controlled Medication Program Rules with the following results:

SOURCE	EXCESSIVE DRUG FOUND	DRUG FOUND >165 UG/ML NOT ON PROGRAM	NONE FOUND ON PROGRAM
Thoroughbred	1	0	3
Harness	0	0	0
TOTAL	1	0	3

4. All equine urine samples submitted were subjected to screening for presence of LASIX as per the Massachusetts State Racing Commission Bleeder Program Rules with the following results:

SOURCE	LASIX FOUND NOT ON PROGRAM	NO LASIX FOUND ON PROGRAM
Thoroughbred	4	2
Harness	1	1
TOTAL	5	3

Report of Official Samples Analyzed During 1992 Page 3

5. In addition there were 126 special sample submissions which consisted of feed preparations, pharmaceuticals, powders, tablets, capsules, and liquids which were analyzed and reported on.
6. An additional 43 greyhound urine samples were found to contain sulfonamides and/or trimethoprim. These samples were not reported as positive pending a review by the State Racing Commission regarding the use of antibacterials in racing greyhounds.
7. Attached, please find a breakdown of samples submitted to this laboratory in 1992 by month and track.

Respectfully submitted,

Bruce Aspeslagh
Chief of Laboratory

PARI-MUTUEL OPERATIONS -- COMPLIANCE ENSURED

Pari-mutuel responsibilities include overseeing the appropriate distribution of the handle. The handle is the total amount of money wagered at each racing performance and the percentage or take-out of the handle is determined by statute.

SAFEGUARDS

All monies wagered at each racetrack are logged into a cash/sell totalizator system. At the start of each live race, all wagers are locked into the computer by a racing Commission Steward/Judge. For simulcast races, standard industry protocol is used to stop betting.

Print-outs from the totalizator system are audited by the Racing Commission Accountants for accuracy and compliance with current statutes.

A report listing all decoded numbers is filed by the TV. Department with the Racing Commission Accountants on a daily basis.

DAILY AUDIT

A summary sheet, detailing the breakdown of the statutory take-out is prepared by a Racing Commission Accountant for each individual racing performance. For live racing, all necessary information is provided by the on-site totalizator system. For export simulcast races, a report from the host track is faxed to the guest track. This report must be used in conjunction with on-track reports to complete the summary sheet. This activity ensures that the public, the commonwealth, horsemen, dogmen, and all designated trust funds are properly funded.

A handle reconciliation report is prepared by the Racing Commission Accountants on a daily basis. This report shows the total handle broken down as to live, imports, and exports. The balance of all current uncashed ticket and the liquidity of the mutuel department is audited on a daily basis by the Racing Commission Accountant.

ANNUAL AUDIT

The net value of all outstanding tickets is returned to the Commonwealth one calendar year after the end of the racing year. An audit of these outstanding tickets is conducted on a yearly basis by Commission accountants.

STATE RACING COMMISSION INSPECTORS

Supervisor/Director of Racing

David R. Ernst

Racing Inspectors

George E. Carifio
William F. Mee
Edward M. Travis

Michael J. Cunningham
Manual Raposa
Wallace A. Ward

Mark H. Estrich
Lawrence J. Rooney
John J. Werner

Racing Inspectors supervise the operation of the Commission's field offices located at Suffolk Downs, Foxboro Park, Raynham Park, Wonderland Park, as well as temporary offices at the Northampton Fair. In their role, they must possess a thorough knowledge of and the ability to interpret the rules and regulations of the racing industry. Furthermore, they must maintain a close liaison with the Stewards, Judges, Racing Officials, Track Security, the State Police Investigative Unit, Law Enforcement Agencies, and the Racing Commission, in order to ensure that the operations at each racetrack are efficient and effective.

PROCESSED 9,335 OCCUPATIONAL APPLICATIONS IN 1992

Occupational licenses are annual and expire on December 31st. Inspectors review and process license and registration applications from applicants such as owners, trainers, assistant trainers, jockeys, stable and kennel employees, and racing officials.

OVER \$228,000.00 IN LICENSE FEES COLLECTED IN 1992

Commission inspectors were responsible for collecting \$228,086.00 in license fees and \$15,095.00 in fines during 1992. As a result of the inspectors efforts, \$243,181.00 was deposited in the general fund of the Commonwealth.

HANDLE COMPLAINTS

The Commission inspector is the most accessible and visible Racing Commission representative at the racetrack. Complaints and disputes are most often initiated with the inspectors. The complaints and disputes that cannot be resolved at the field level are then reported to the Commission Office for further action.

SUPERVISE TESTING AREA

State testing areas at each track are supervised by an inspector in order to provide for the proper collection and continuity of urine and blood samples obtained from racing animals. Testing assistants who are employed for each program, are trained, scheduled, and supervised in their activities by the Inspectors in compliance with established procedures.

During 1992 Racing Commission veterinarians collected 888 blood samples and commission testing assistants, under the direction of the racing inspectors collected 24,474 urine samples from both horses and dogs who participated at Massachusetts racetracks. These samples were tested at the Racing Commission Laboratory for prohibited drugs and medications that could affect the performance of a racing animal.

BOARD OF STEWARDS
BOARD OF JUDGES

Enforcement of the rules and regulations of racing begins with the prosecution of violators by the Board of Judges or Stewards at the racetrack. One judge is appointed by the racetrack, and must be approved by the Racing Commission and be licensed as racing officials, and two are appointed by the Racing Commission.

RESPONSIBILITIES

The judges and stewards are responsible for reviewing all occupational license applications and for recommending or not recommending the applicant for a license. The judges and stewards are present at the racetrack each day on which there is racing, and they oversee everything from the drawing of post positions to making the results of every race official. In addition, the stewards/judges preside over all hearings conducted at the track and report their rulings and findings to the Racing Commission.

Before post-time of the first race the stewards/judges review the daily program of races to note any changes or errors. Changes are reported to each department that might be affected by the change. (i.e., mutuels, paddock judges, patrol judges, starters, clerk of course, clerk of scales, program director and announcer. All changes are also reported promptly to the wagering public.)

After observing every race, both live and on television monitors, the stewards/judges mark the order of finish as the horses or dogs cross the finish line. They give the first three unofficial finishers to the Mutuel Department, post an inquiry, review an objection, and request a photo finish when necessary. If there is an apparent violation of the rules, the stewards/judges review the videotape and then make a decision before making the results of the race official.

If a violation of the rules occurs, the judges notify all parties involved of a scheduled hearing. After conducting the hearing the stewards/judges determine if any penalty of a fine or suspension or purse redistribution should be imposed. Violators are then advised of their right to appeal to the Racing Commission.

Track Appointed Judges

Herbert C. Brenner

Russell Brennan

Associate Track Judges are responsible for supervising lead-outs and starting box personnel on the track as well as making sure that no greyhounds are mishandled and that blankets, muzzles and starting box equipment are operating correctly.

Associate Paddock Judges are present for weigh-in of greyhounds and assure that all weights are accurately recorded. They double check Bertillon cards and markings and make sure that all greyhounds are properly identified, blanketed, and muzzled. In addition, they ensure that only licensees and authorized track personnel with proper identification badges are in the paddock. They report any irregularities to the Commission Judge immediately and meet with the Commission Judge periodically. Associate Commission Judges supervise racing greyhounds from the time they are brought to the racetrack until each race is made official.

83 ADMINISTRATIVE HEARINGS IN 1992

In 1992 the Board of Judges issued 8 suspensions and 56 fines to licensees for violations of the Racing Commission Rules and Regulations.

During 1992, the Board of Judges issued 24 suspensions or fines to trainers for violations of the medication rules. In each case, the medications detected were minor violations of the rules resulting in fines and short suspensions.

23 FINES OF TRAINERS FOR VIOLATION OF 205 CMR 5.26

The most common violation of the rules in greyhound racing is 205 CMR 5.26 which regulates the weight of racing greyhounds. Violation of 205 CMR 5.26 carries an automatic fine and suspension of the greyhound for six days. The greyhound is also scratched from that day's racing program. The trainer responsible for caring for the greyhound is fined, and if repeated violations occur the trainer may be suspended.

Associate Track Judges are responsible for supervising lead-outs and starting box personnel on the track as well as making sure that no greyhounds are mishandled and that blankets, muzzles and starting box equipment are operating correctly.

Associate Paddock Judges are present for weigh-in of greyhounds and assure that all weights are accurately recorded. They double check Bertillon cards and markings and make sure that all greyhounds are properly identified, blanketed, and muzzled. In addition, they ensure that only licensees and authorized track personnel with proper identification badges are in the paddock. They report any irregularities to the Commission Judge immediately and meet with the Commission Judge periodically. Associate Commission Judges supervise racing greyhounds from the time they are brought to the racetrack until each race is made official.

48 ADMINISTRATIVE HEARINGS

Commission Rule 205 CMR 5.16: (2) (3) prohibits the use of drugs in racing greyhounds. A violation of this rule results when a prohibited medication is found in a urine sample taken from a greyhound after the running of a race, i.e., aspirin, procaine, or D.M.S.O. (dimethylsulfoxide).

During 1992, the Board of Judges issued 11 suspensions or fines to trainers for violations of the medication rules. In each case, the medications detected were minor violations of the rules resulting in fines and short suspensions.

11 FINES OF TRAINERS FOR VIOLATION OF 205 CMR 5.26

The most common violation in greyhound racing is 205 CMR 5.26 which regulates the weight of racing greyhounds. Violation of 205 CMR 5.26 carries an automatic fine and suspension of the greyhound for six days. The trainer responsible for the greyhound is also fined, and if repeated violations occur, the trainer may be suspended.
